DETAILED ACTION

Election/Restrictions

NOTE: Applicant's attention is required to further review the claims to put them in the proper dependency format.

This application contains claims directed to the following patentably distinct species of the claimed invention:

Group I, claims 1-23, 25-31, 33-43, 46-50, 55-56, 58-61, 63-66, 68-71, 73, 75-78, drawn to a depletion mode floating gate transistor layout.

Group II, claims 24, 32, 45, 62, drawn to flash memory device.

Group III, claims 44, 51-54, drawn to programmable logic array.

Group IV, claims 57, 67, 72, 79-80, 82, drawn to method of forming a floating gate transistor.

Group V, claims 74, 81-84, drawn to method of operating a nonvolatile memory cell.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 2818

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Lam whose telephone number is (703) 306-9122. The examiner can normally be reached on 8:30 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on (703) 308-4910. The fax phone numbers for the
